Community Service... Digging Deep!

Article by Aahd Arnous & Jessica Abou Zbib (Grade 10)

On Tuesday March 30th, 10A joined Mr.Aziz for a gardening morning on campus. We first started by picking the location where we wanted to work, then started digging.

Community Service is important for students because it provides the opportunity for us to become active members of the community and it provides a positive impact on the community. Community Service helps us to learn skills and knowledge, and helps us provide service to people who need it. The benefits...

- 1) **Psychological Benefits:** helps us feel good about ourselves because we are helping others. It is a beneficial way to decrease stress.
- 2) **Social Benefits:** allows us to make bonds with the wider community and increase our responsibility in certain areas as well as raise awareness of certain situations in society.
- 3) **Cognitive Benefits:** encourages us to learn from our experiences, obtain work-related skills and develop interpersonal communication skills.

Community service allows us to make differences in the world because we are the ones who shape the future. Generally, we are usually unaware of our community needs but we are the ones who can make a change for the better!

The 7 Learning Outcomes and Goals...

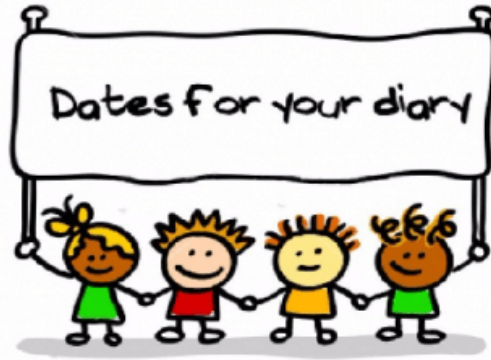

1. Identify your own strengths and develop areas for personal growth.
2. Demonstrate that challenges have been undertaken, developing new skills in the process.
3. Demonstrate how to initiate and plan a service experience.
4. Show commitment to and perseverance in CAS experiences.
5. Demonstrate the skills and recognize the benefits of working collaboratively.
6. Demonstrate engagement with issues of global significance.
7. Recognize and consider the ethics of choices and actions.

“Look deep into nature, and then you will understand everything better.”

—Albert Einstein
